## Experience

### Projects

During my journey of learning HTML, CSS, JavaScript, and React.js, I honed my skills by developing numerous minor projects, including TodoList apps, eCommerce websites, and various other applications utilizing React.js and other relevant technologies. Now I am learning backend of Web Development. eCommerce website is available on my Github account.

### Objectives

My aspiration is to thrive as a professional web developer within a collaborative team environment. I am deeply enthusiastic about the prospect of working together, leveraging collective expertise to create exceptional digital experiences. Eager to contribute my skills and learn from others, I am committed to fostering a culture of teamwork and innovation
